Hello,

The only information I have is what is recorded on the computer application. The permit has not been cleared / signed off by the inspector.

The last entry on the computer is dated 1/31/2014 and it is a preliminary inspection where the forms were not ready and they should reschedule an inspection.

The inspector of record is on vacation till next Monday.

Good Morning Anthony

Our concrete contractor for this sidewalk repair project told me that his portion of the work is fully signed-off by the inspector. I just wanted to verify that your records agree before issuing the final check.

Trees will be planted with the Urban Forestry Division supervision during the first week of March.
